

Self Assembly of Building Scale Elements

Design Studio, NC tools & New Design Languages

Prof. Larry Sass
Jennifer Seely

Department of Architecture and Planning

21 Century of Architecture

Architects will design and build Non Euclidian Space

[Change the way architects are taught – Studio]

[Change Tools – NC]

[Embedded knowledge or rule into building components]

20 Century

Euclidian Design

Lever House – NYC 1952

1. Mass manufacturing
2. Multiple components of the same size or geometry
3. Relationship of drawings to manual construction
4. Adjustments can be made during construction

21 Century

Frank Gehry
Stata Center

Non - Euclidian Design

1. High Cost
2. Precise Machinery to Build/Construct
- 3. Precise Machinery to Design**
